02 INDUSTRY EXCELLENCE RELATIONSHIP

02.1 Introduction

Advanced Consulting – Production & Supply Chain Development

Helps businesses optimize production and build efficient, resilient supply chains

Industry Excellence Relationship

Key Services

-Operational Optimization: improve efficiency through Lean Manufacturing processes

-Supply Chain Development: strengthen production processes and scalability

-Sustainability Traceability: implement ethical sourcing and blockchain solutions

-Strategic Consulting: transform the supply chain into a competitive advantage

02.2 Opportunities

Opportunity 1
Italian Production Companies

Connects Italian production companies with emerging talent, brands, and innovation opportunities

Who is it for?

-Production companies and suppliers
-Businesses seeking talent and process innovation

What it offers:

-Operational process analysis and optimization
-Access to designers, brands, and skilled professionals

Opportunity 1
Fashion Production as a Cultural & Educational Hub

Transforms Italian fashion production companies into cultural, educational, and heritage destinations. Increasing visibility, reputation, revenue, talent access, and institutional relevance

Who is it for?

-Talents, designers, and students, by giving direct access to real production knowledge and career pathways.

What it offers:
Focus on the 3 pillars of Made in Italy:

-Industrial Craft

-Family Capitalism

-Extreme Agility
